# RAFAEL EMILIO GUZMÁN

## Degree in Computer Science

### Developer

Responsible, committed to creating usable and high-quality products, cheerful, optimistic, focused, collaborative and in search of new challenges, I have worked in different companies, with different proposals and objectives, both in the development of applications for third parties, as in products of each company, focused mainly on electronic commerce and service administration, likewise, I always find myself encouraged to undertake new projects with different technologies.

### Work experience

**Pherchu - Full stack developer.** (Freelance)

- I developed APIs for the company's websites and video games.
- I used programming technologies such as javascript, **react.js**, **node.js**.
